I spoke with Bo Delp in OEAE re: Pavillion website update. Draft changes below will be made this pm. Pls call me if you have any Qs, suggestions, etc.

What's New

January 11, 2013

EPA is extending the public comment period for the draft research report to September 30, 2013. During this time, EPA will continue its public outreach activities including meeting with key stakeholders and posting additional technical information on this website. This extension will allow the public additional opportunity to comment on EPA's draft report and the latest round of sampling conducted by EPA and USGS. The Agency will take into account new data, further stakeholder input, and public comment as it continues to review the status of the Pavillion investigation and considers options for moving forward.
